**CENTRE FOR PLANT MEDICINE RESEARCH**  
PHARMACOLOGY & TOXICOLOGY DEPARTMENT

Product Code	Product Form	Date Received	Date Analysed	Test Conducted
Cp/010/22	Capsules	11 <sup>th</sup> February, 2022	8 <sup>th</sup> April, 2022	Acute Toxicity Test

**RESULTS:**

Table Showing Results of Acute Toxicity Test on Capsules (Cp/010/22) in Wistar Rat.

Animal Model	Wistar Rat
No. of Animals	12
Sex	Male
No. of Groups	2(n=6)
Route of Administration	Oral
Formulation	Capsules
Preparation	Content of Cp/010/22
Dose Administered	5000 mg/kg
Period of Observation	14 Days
No. of Deaths Recorded	Nil
Estimated Median Lethal Dose (LD <sub>50</sub> )	Greater than 5000 mg/kg
Physical Signs of Toxicity	Nil

**REMARKS:**

The LD<sub>50</sub> is estimated to be greater than 5000 mg/kg which is greater or equal to level 5 on the Hodge and Sterner Scale<sup>1</sup> and also 186 times more than the recommended dose (two capsules twice daily, equivalent to 26.86 mg/kg), as indicated by the manufacturer. Thus, Cp/010/22 may not be toxic and is within the accepted margin of safety (Hodge and Sterner Scale) at the recommended dose.
